To Whom It May Concern: It is my belief from the information I have read That this has been going on too long. The freedom of progress has been slowed, and the publicity has been mostly adverse. It is time to close this matter and get on with regular daily business for the sake of promoting our economy. Microsoft is one of the most generous business firms in the world, and should be a promotion business to follow. Sincerely submitted, M. Jean Thompson, 2034 E. No Crescent, Spokane, Wa 99207
